

Honesty and precision in all our communications

Integrity in all our actions

Respect for all those with whom we come into contact

Responsibility for achieving goals

are the founding values that unite all the employees of the Huntsman group all over the world and that are promoted in internal relations, towards customers and towards all those with whom one enters into a relationship and who are the guide for making decisions every day.

Huntsman Gomet S.r.l. ("Gomet") recognizes these principles, together with the satisfaction of customers requirements, their trust and loyalty, as real and inalienable values.

The global automobile market is every day more focused on safety, reliability and respect for the environment and asks that every part of the vehicle actively contribute to the pursuit of these demands. This context, together with the examination of the expectations of the interested parties, leads us to evaluate all the risks and opportunities of each of our initiatives and obtain a reference framework for the definition of the goals of our Organization.

Strengthened by these considerations, we are committed to:

- Satisfy the needs of customers, by listening to and anticipating their requests and expectations;
- Scrupulously comply with the laws by offering technically flawless products, obtained through the proactive use of technical standards, promoting the safety and reliability of the products themselves;
- Develop our processes in an effective, efficient, safe way for all employees and with a low environmental impact, improving them through constant comparison with the real market;
- Promote the growth of skills and awareness through continuous training to improve the skills and abilities of each of our associates;
- Constantly improve the Quality Management System ("QMS") as a tool capable of guaranteeing company processes effectiveness and efficiency.

We recognize in the UNI EN ISO 9001 standard in its 2015 version the fundamental reference for our SGQ and for this reason we confirm its convinced adoption.

Azeglio, 04/01/2021

Clemens Rollmann
Amministratore Delegato
