

We are seeking a Maintenance Technician.

Purpose of the role:

Perform routine and extraordinary maintenance activities to ensure the efficiency of production and auxiliary systems.

Responsibilities:

- Based on diagrams, drawings, procedures, and/or operating instructions, carry out repair work, routine and extraordinary maintenance, and adjustment of mechanical, electrical, electronic, hydraulic, or pneumatic equipment and systems.
- Commission new equipment and directly intervene in case of breakdowns, identifying solutions that minimize disruption to production.
- Compile statistics on extraordinary interventions to improve preventive maintenance.
- Prepare documentation relating to preventive and extraordinary maintenance activities performed on machinery and systems.
- Participate in training activities related to routine machine maintenance.
- Report any discrepancies between planned and actual maintenance times to the Production Manager.
- Notify the Production Manager of any needs regarding consumables required for maintenance activities.
- Support production staff when they carry out minor routine maintenance tasks.

Organizational Relationships:

Reports to the Production Manager.

Educational Background:

Technical diploma in mechanics, electrical engineering, electromechanics, or electronics.

Skills:

- Accuracy
- Manual dexterity
- Flexibility
- Customer orientation (internal/external)
- Analytical thinking

Employment Details:

- Contract type: Permanent employment following the successful completion of a probationary period
- Compensation: Based on experience
- Availability: Full-time, daytime shifts

How to Apply:

Please send your updated resume and cover letter to **rdestefano@gomet.it**, specifying “Maintenance Technician Application” in the subject line.
